PUBLIC NOTICE

RURAL MUNICIPALITY OF LOUISE

MOWING OF MUNICIPAL DITCHES

The Council of the R M of Louise would like to advise the residents and ratepayers that the annual mowing program will soon commence. Anyone planning to bale the ditches should do so soon.

If you cut the ditches it must be baled – even if it has been rained on or is not fit for feed. Leaving cut grass on the roadside makes it difficult for the municipal equipment to do a proper job.

We encourage you not to place cut grass on the municipal road and to remove bales as quickly as possible for safety reasons.

Please be aware of the mowing equipment and motor graders on the municipal roads and SLOW DOWN to 60 km/hr when passing.
